Web development for Gemini Explorer

Home page

Acting as the central index to all pages within, your homepage should be quick to load and point out all the latest Events, News and Products for returning visitors along with some information about 'who you are' and 'what you do'.

The Boat

Page and additional sub-pages containing information about your boat. Text and images will be added to these pages via admin.

Gallery

Page showing an selection of images uploaded via your admin. Each image will be accompanied by a title and description.

Skippers Diary

updatable section. You will be able to add pages under this section.

News

News page for adding articles. Can be sorted into categories, images can be added and text formatted.

Location & Contact

Page with contact form and location map. The text will be updatable for you to go in and add directions, contact information etc.

Links

Links page for displaying links to other relevant websites. This is good for search engine rankings.

Corporate Web Hosting Space

Hosted on our own dedicated servers, using the back up and support of the world leaders in Internet hosting – Verio, this option provides a fast and cost effective way to host your site with twenty four hour monitoring and a guaranteed 'up' time of 99.8%. Our servers have a 100mb connection to the Internet and are housed in a data centre with fifteen Internet backbone connections.

Business Start: 100mb of Fast, effective corporate webhosting space including - PHP, MySQL, 5 x POP 3 email boxes, 10 x email forwarding options, CGI enabled and fully accessible statistics package.

Development Costs

£900 (+vat) for updatable site

Annual Webhosting

£120 (+vat) Annual webhosting

Kind Regards

Ian Jamieson
